

SD-WAN: A DRIVER OF DIGITAL TRANSFORMATION

THE NETWORK MANAGER'S BALANCING ACT

The WAN Needs to Support Business Outcomes

Q. What are the key business outcomes that your company's WAN should support?

New Technologies Force Change

Q. Which of the following technology areas will have the biggest impact on your company's WAN requirements in the coming years?

Security and Cloud Connectivity Drive Requirements

Q. What are the key factors that will drive your company's network requirements over the next two years?

But Budgets Show Only Flat to Modest Growth

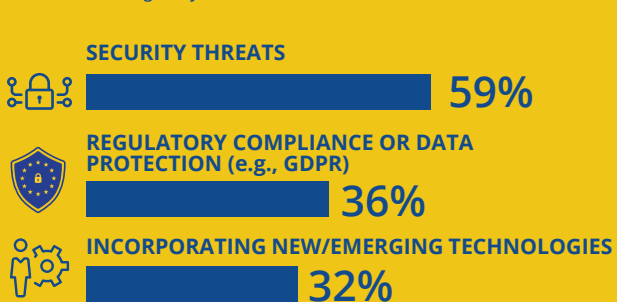

Q. How do you expect the budget for the WAN to change, if at all, in the next two years?

THE ROAD AHEAD IS FULL OF BUMPS

Challenges Are Many, But Security is Key

Q. What do you see as the biggest challenges for your company's WAN in the coming two years?

Regular Tasks Are Not Easy For Many

Q. How easy do you think it is to do each of the following on your company's current WAN? (% responding "challenging/very challenging")

Few Organizations Feel That Staff and Network Are Ready for the Future

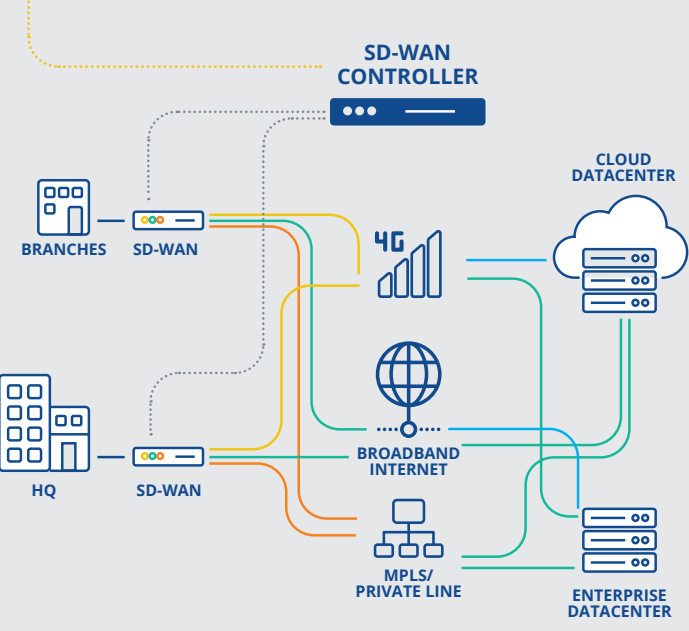

Q. Do you feel that the staff at your company have the right skills to drive the evolution of its WAN? (% responding "Yes")

On a scale from 1 to 5, where 1 is not at all ready and 5 is completely ready, how ready is your company's network to meet growing requirements and deliver these business outcomes? (% responding "4/5")

SD-WAN DRIVES NETWORK EVOLUTION

SD-WAN ELEMENTS

- Leverage hybrid networks
- Centralized, application-based policy controller
- Application and network performance monitoring
- Software overlay that abstracts and secures underlying networks
- Dynamic path selection to optimize the WAN based on application requirements

NETWORK CHANGES CAN IMPROVE PERFORMANCE

Doing Nothing is Not an Option as Requirements Are Accelerating

Q. What changes have you made or are you planning to make to your company's WAN to respond to these changing requirements?

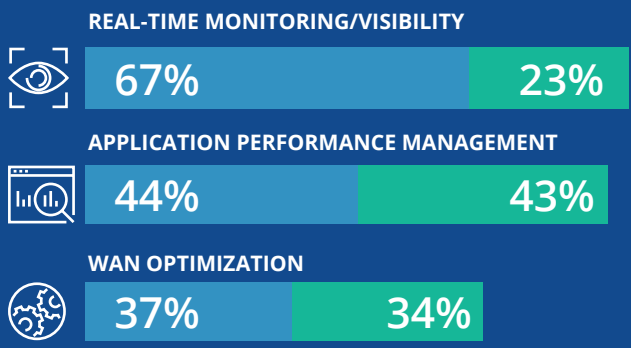

Architectural Change Can Improve Performance

Q. Does your company use any of the following in its WAN solution?

Organizations Are Increasingly Adopting Intelligent Services

Q. Does your company use any of the following intelligent WAN services?

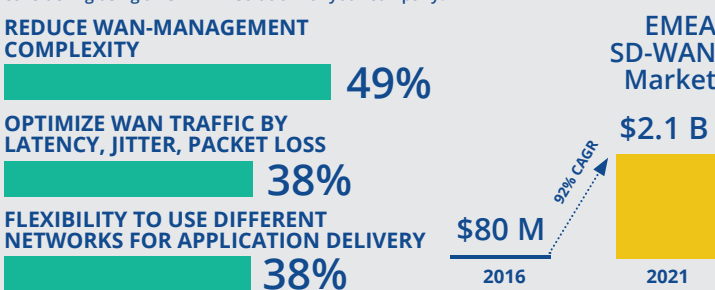

...But Few Are Leveraging the Power of Predictive Analytics to Optimize the Network

Q. What is your company's approach to using network intelligence to optimize the network?

SD-WAN Delivers a Range of Advantages

Q. What are the most important reasons for using or considering using an SD-WAN solution for your company?

Demand for SD-WAN is Accelerating

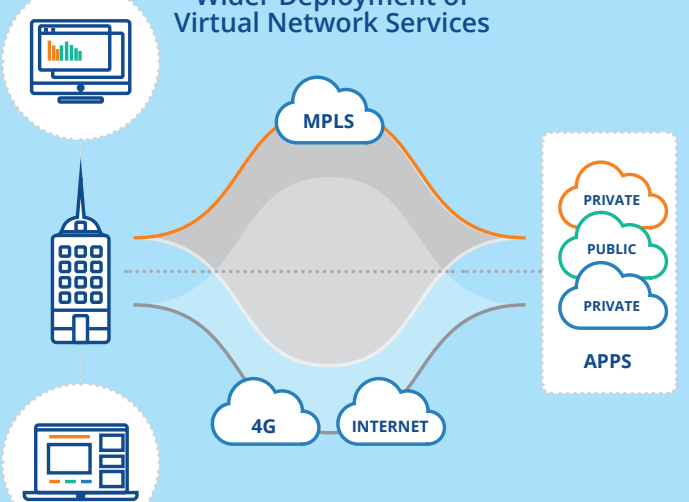

Q. Which of the following best describes your company's adoption, plans, or awareness of SD-WAN?

SD-WAN IS THE FIRST STEP TOWARD NETWORK-AS-A-SERVICE

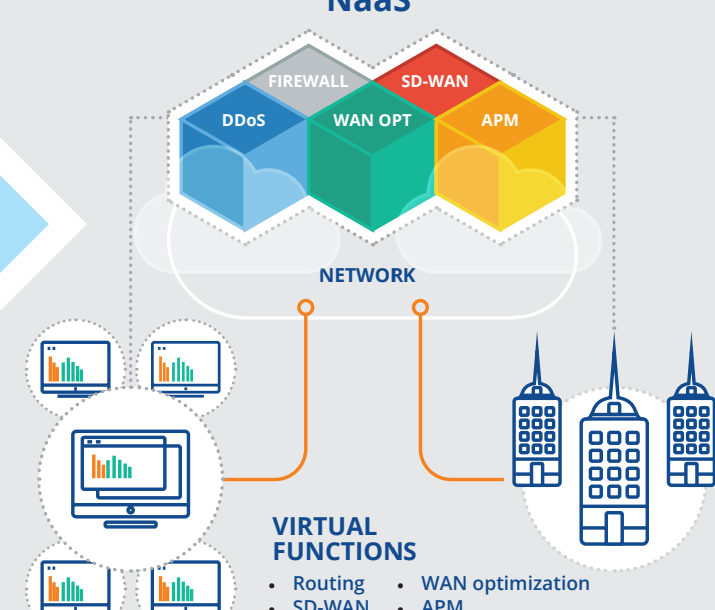

SD-WAN

SD-WAN Should be a Stepping Stone Towards a Wider Deployment of Virtual Network Services

- Transport agnostic
- Manage app rather than device
- Agile delivery

NaaS

- Replace expensive HW appliances
- On-demand services
- Automated control/management

...Unlocking Further Benefits for the Organization

Q. What do you see as the top benefits that virtual network services can bring to your company?

ESSENTIAL GUIDANCE
